

MedBiquitous Standards Proposal Form

We welcome new additions to the MedBiquitous collection of standards and technical guidelines. We would also like to hear from the community regarding revisions to our existing collection.

Please utilize this form to submit requests for one of the following:

- New data standard or other technical standard – (Standards are agreed upon rules, definitions, methods and/or technologies that an industry adopts)
- New technical guideline – (Guidelines provide recommended practices and procedures)
- Extension of standard from another standards organization to include requirements for health professions education and credentialing
- Revision or reaffirmation of existing MedBiquitous standard or technical guideline

Please use the text box below to answer one of the following questions based on your selection above. Attach additional sheets and documentation as needed.

For new standards or guidelines, please describe the nature of your need and how data (or other) standards would be of benefit in this scenario.

For extension of existing standards, please name the existing standard, the responsible standards development organization, and how health professions specific needs will be met by this project.

For revision or reaffirmation of existing MedBiquitous standards, please name the existing standard and describe your request for changes.
